VIA CAROLINA RUN 2008 Prague – Nuremberg

July 19 - 20, 2008

www.viacarolinarunning.com

PRAHA – NÜRNBERG

The „VIA CAROLINA RUN“ takes place yearly as a team relay run on a marked route between the twin cities of **Prague** and **Nürnberg**.

Start: July 19, 2008 at 12: 00 h

Town hall Prague

Finish: July 20, 2008 ca. 20 :00 h, (32 hours)

Schöner Brunnen on the main market Nürnberg

Course:

Totally 320 km, split up into 31 stagess of each 10 km, as well as a short group run at the start in Prague (4.4 km) and at the finish in Nürnberg (2km).

One relay runner per team starts each hour at the respectively next change point! All teams receive a set of maps with detailed stage descriptions. In addition to that, course and change points are marked by colour spray with the sign "VCR".

Registration and information:

One team should consist of ca. 10-12 runners with 2 coaches. The stages are oriented at a pace of roundabout 10 km in 60 minutes. The starting fee (incl. certificate and commemorative medal) amounts to: 19 €/runner for 1 stage, 29 € for 2 stages and 39 € for more, per relay team max. 450 € and is to be transferred to Mario Wallrath, account no. 6416276, Volksbank Raiffeisenbank Nürnberg (bank code 760 606 18).

The relay team leader is responsible for the organisation within the relay.

Important:

All participants run on their own responsibility. The course runs on public roads and – wherever possible – on bike respective walking lanes. The course is not blocked or specially secured. The organisation team, together with the respective teams, secures the runners by accompanying vehicles (car / bike). The participant is obliged to keep the traffic rules and to take care for his own safety. The organisation team does not assume any responsibility in case of accidents, theft or any other case of damage. Furthermore, the participant declares to be in a good state of health and has prepared himself physically for this running event. Refreshments are organised by the respective teams. The organisation team supports this with single central refreshment points.
